

## **New Feature Request Template**

Name	Search, sort and filter comments
Requester	Mike A
Submit data	19/01/2023
Summary	Make it possible to search comments from the main dashboard by user and by text.
Why this feature is important	I want to be able to find out all comments that have been made on a specific issue by my client.
Priority	High

### **Description**

Make it possible to search comments from the main dashboard by user and by text.

It's a massive use case for us as we often go back to client comments when fixing bugs.

### **Notes**
